PROFESSIONAL SUMMARY

Software Engineer with **3+ years of experience** building scalable full-stack applications and cloud-native microservices using **React, Node.js, .NET Core, AWS, and Azure**. Strong focus on **API performance optimization**, containerized deployments with **Docker**, and **CI/CD automation** for production-grade distributed systems.

WORK EXPERIENCE

Find Me LLC

Aug 2025 – Nov 2025

Full Stack Developer Intern

Remote, USA

- Designed and developed **10+ RESTful API** endpoints for portfolio creation, facial recognition, and user management using Node.js and FastAPI.
- Dockerized** and **deployed** the full-stack application on Azure Container Apps, cutting deployment time from **2 hours to under 15 minutes** with automated CI/CD pipelines.
- Established coding standards, PR review guidelines, and documentation practices across the **backend team**, improving code consistency and **reducing merge conflicts by 30%**.

Presidio

Sep 2023 – Jun 2024

Software Engineer II

Chennai, India

- Architected a **.NET Core** microservices REST API layer, decoupling **3 core services** and reducing API response latency by **40%** under peak production load.
- Developed scalable and accessible frontend features with **Next.js**, ensuring **ADA compliance** and **reducing UI defects** by 30%.
- Automated** cloud infrastructure using **Terraform** and **AWS** (API Gateway, Lambda, S3, RDS), enabling **20% faster deployments** and eliminating manual provisioning.
- Co-built a **GenAI-powered RFP generator** (ProposalWiz) during HackTheFuture 2023, cutting proposal drafting time by 50%.

Presidio

Jul 2021 – Sep 2023

Software Engineer

Chennai, India

- Improved Next.js performance using **lazy loading** and built **20+ reusable React components** with Tailwind CSS, accelerating feature development.
- Automated** payment gateway testing using **Puppeteer**, **reducing** repetitive testing **effort by 75%** and improving release reliability.
- Optimized** database queries and schema migrations using Prisma ORM and **AWS RDS**, **cutting API response time** by 200 ms.

EDUCATION

Illinois Institute of Technology – Chicago, IL

Aug 2024 – May 2026

Master's in Computer Science

GPA: 3.9/4.0

R.M.K. Engineering College, Anna University – Chennai, India

July 2017 – Jun 2021

Bachelors of Engineering in Electrical and Electronics

GPA: 3.8/4.0

PROJECTS

DevDocsChat | *LangChain, Hugging Face, Groq, Gradio* | [GitHub](#)

Jun 2025 – Jul 2025

- Developed a Retrieval-Augmented Generation (**RAG**) app with **LangChain** and **Hugging Face** sentence-transformers. Implemented PDF/text/markdown ingestion, URL processing, semantic search, and **Q&A chatbot** with conversational memory.

GenScribe | *Next.js, Chakra UI, Gemini API, Firebase* | [GitHub](#) | [Website](#)

Mar 2025 – Apr 2025

- Engineered a full-stack **AI-powered blog platform** with a rich-text editor, secure multi-user access, and automated content generation via **Gemini API**, **reducing** manual writing time by **70%**.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript/TypeScript, C#, SQL, HTML/CSS

Frontend: Next.js, React, Vue, Angular, Tailwind, Bootstrap, Jest

Backend: Node.js, Express, FastAPI, Spring Boot, .NET Core, NestJS

Cloud/DevOps: AWS, Azure, Docker, Kubernetes, Terraform, CI/CD, Git/GitHub, Agile/Scrum, SDLC, Jira, ETL

Databases: MySQL, PostgreSQL, SQL Server, DynamoDB (NoSQL), MongoDB, Vector DBs (ChromaDB)

AI/ML: LLMs, LangChain, RAG, OpenAI API, Hugging Face
